This recording was first suggested to me nearly a dozen years ago, after the initial release of my award winning recording “CHAKRA CHANTS”. I began to receive requests from people who wanted an abbreviated version of sounds that were specifically designed to resonant, balance and align the chakras. The running time of “CHAKRA CHANTS” was approximately an hour. Many wanted something much shorter—certainly without the complete effect of “CHAKRA CHANTS”, but powerful and effective nevertheless.

It’s taken me this long to finally create “THE 7 MINUTE CHAKRA TUNE-UP”. Part of that is simply due to the fact that as with all the various projects I find myself engaged in, I received enough signs and messages that now was the time to create such a recording. Part of it also is that few will debate that there seems to be a significant speed up of time. Because of this, many find it difficult to create the time to listen to “CHAKRA CHANTS”. An hour is just too much these days! Go figure.

Thus, the manifestation of “THE 7 MINUTE CHAKRA TUNE-UP” which goes through the 7 chakras in just a little over 7 minutes. Those of you who know my work are aware that from my perspective, the most important sound exercise that can be initially be experienced and shared is the use of the 7 Sacred Vowel Sounds which resonate the chakras. Thus, it is the use of these vowels that I have focused on in this recording. I have incorporated many other sounds as well, including an abbreviated version of the original bed of sonics used for “CHAKRA CHANTS”. But the 7 Sacred Vowel Sounds are predominantly featured so that you can sound along with “THE 7 MINUTE CHAKRA TUNE-UP”, utilizing the power of your own voice to help enhance the power of this recording.

You don’t need to be a musician, a singer or have any sonic background in order to sound along with this recording. I do employ a very specific scale—what is called a harmonically related diatonic major scale that many find particularly effective for chakra resonance. Yet, I repeat—you don’t need to have any musical ability—you merely need the willingness to sound the 7 Sacred Vowel Sounds as best you can.

Over 25 years ago, I created the formula “Frequency + Intent = Healing”. This simply means that the sound you make coupled with the intention you have create the effect. Thus, simply by sounding along with this recording using the appropriate vowel sounds for the appropriate chakra, you can truly experience profound chakra resonance and healing, amplify the effects of this already powerful recording. Yes, just listening to “THE 7 MINUTE CHAKRA TUNE-UP” is extremely beneficial for indeed the sounds on this recording will help balance and align your chakras, creating health and harmony for yourself. But sounding along with it will further enhance this.

The power of our own self-created sounds has been recognized for many millennia by the ancient wisdom holders of the various traditions. Now, modern science is validating the effects of even the simplest of self-created sounds. The beneficial physiological effects include:

- Increased oxygen in the cells
- Lowered blood pressure and heart rate
- Increased levels of melatonin
- Reduced levels of stress related hormones
- Release of endorphins—self-created opiates that work as "natural pain relievers",
- Increased levels of nitric oxide, (NO), a molecule associated with promotion of healing
- Release of oxytocin, the “trust” hormone

Using your voice in order to sound along with this recording produces these and other physiological benefits. In addition, of course, you’ll be resonating and balancing your chakras—whose healing qualities have been known throughout time by ancient mystics.

With this recording, I sound each of chakra 3 times with the 7 Sacred Vowel Sounds. I encourage you to join me to further experience the benefits of this recording.

Below is a chart showing the 7 chakras and their related vowel sounds. This chart may assist your sounding along with “THE 7 MINUTE CHAKRA TUNE-UP”.

I trust that you’ll enjoy this recording and using it will become part of a daily practice of incorporating sacred sound into your life.
